

VSEVOLOD DEKHTERINSKIY

Web Developer

DETAILS

Wien, Austria
seva2409@gmail.com
+4368120417051

PROFILE

I have programming experience for **more than 3 years** and been working for 2 years in IT-branch. I am most experienced in a Front-end, however I have a good understanding of back-end as well (I can write CRUD endpoints in Express.js :)). My biggest achievement is that I have basically learned everything by myself and I am not going to stop to learn and implement new things in my future projects.

EMPLOYMENT HISTORY

Web Developer, Sobesednik, Moscow

APRIL 2021 — MAY 2023

Created working web-applications using **Next.js** and **Laravel**, have worked with backend API to get data, did my best to create responsive and accessible websites.
